NBA Accredited-Mech, EEE and ECE programs)

Dindigul – Palani Highway, Dindigul 624 002

MENTORING SYSTEM

Mentoring System to help at individual level:

SSMIET gives much importance to the mentoring system. Mentoring is a professional relationship in which an experienced faculty member (the mentor) assists the students (the mentee) in developing specific skills and knowledge that will enhance the performance of the students. In our institute, mentoring of the students has been given top priority. HoDs, and mentors play a vital role and address the academic and personal issues of the students.

Mentoring is the need of the hour for students who cross their adolescence during the four year stay at the campus. Our Institution has a system of conducting mentoring once in a week or whenever the intervention becomes essential by allotting 15 to 20 students per mentor. This system helps in monitoring students individually. Mentees Profile is updated regularly as part of documentation.

Type of mentoring:

1. Mentoring sessions conducted in regular intervals help in understanding the problems of the students. Mentoring details are documented properly till the end semester including their attendance, academic performance, special achievements, their strengths and weaknesses, co-curricular and extracurricular activities, project, placement details, etc.
2. Appreciation for commendable performance and follow up actions on irregularity are done on regular basis. Necessary counseling is given related to personal problems expressed by the students.
3. Mentoring in senior classes help in providing **professional guidance** regarding career advancement or the future course of action related to placement, entrepreneurship etc.
4. Mentors enquire about student's innate talents and skills and help them participate in co-curricular, extracurricular activities and sports and games and bring laurels to the institution. Parents visit and reason are documented. During parents visit, students' performance, achievements, problems if any are discussed and constant monitoring and guidance on the part of the parents is stressed.
5. Regular mentoring helps in monitoring the academic performance and participation in other related activities.
