Principal
SSM Institute of Engineering and Technology
Kuttipattu Village, Sindalagundu (P.O),
Palani Road, Dindigul - 624 002.

The following topics were discussed in Technical session.

- Public health and sanitation Nexus
- Overview of Non-Sewered Sanitation (NSS)
- Scope of NSS in Swachh Bharat Mission 2.0
- Small scale Sanitation Systems in India
- Faecal sludge and septage Management – stake holders and Interventions

After this session, the student was refreshed with some activities.

In the technical session II on 11/08/2022, the following topics were discussed.

- Decentralized Waste water Treatment Systems
- FS containment Systems, Emptying and Transportation
- FS Treatment Technologies
- Resource recovery from Fecal sludge
- Gender Inclusive Sanitation

In this Session, students are divided into four groups, such as commissioner, FSTP operator, Truck operator, Health department and were given with a case study on “FS crisis in a city” and they were informed to give their views to solve this crisis. Students had actively participated in this activity and shared their own ideas on this issue.

In technical Session III on 20/8/2022, students had visited the WASH institute at Rediyarchatram and the whole team of students were separated into 3 groups and they were demonstrated with the mobile sludge treatment unit , followed by chemical testing laboratory and viewed the various types of cost effective materials used for construction of toilets, septic tank models, sanitary napkin incinerators and they were explained with how to use the decomposed sludge and treated water for natural plants.
